## Clark Area Community Foundation

Student Board  
Member  
testimonial

"I have been honored to serve on such an amazing board while being a student in High School. Being on this board has opened me up to being more involved in my community for the sake of giving back. This foundation has paid contributions to programs such as FCCLA and my job site at the pool, both of which I am a part of as well as many other projects in the community. It is one thing for a foundation to come together to make our town better, but it is another when students like myself have the opportunity to be involved in the future of our community- it makes us feel important. I have been very fortunate to have grown up in such a caring community that gives back to projects that keep our town booming. I thank the members of the foundation for giving me this opportunity."
